

## ***Join the Field Experiment On December 19th!***

Many of us are "Soul Whisperers." We bring the intention for peace into the world and endeavor to unify with nature, with spirit, and with the hearts of others. We know that our souls create a wave of light and love that foundation a field that can be shared.

In this experiment we are co-creating an intention, joining our souls, and creating a wave of peace and love to enfold the earth!

## ***Bringing Balance in the Midst of Chaos***

On February 8th, we held a program called "Bringing Balance in the Midst of Chaos: Tools to Transform Your World" with *The Council of Light & The Galactic Federation*. We were all deeply connected with The Galactic even though most of those attending had not had this experience before. We received important and practical knowledge from The Council, as well as tools to balance in this precarious time.

## The Machu Picchu Experience

Machu Picchu Mountain

### Pilgrimage to Machu Picchu

One of the most amazing things was the connection we felt at Machu Picchu with *The Ones With No Names (TNO)*. They had indicated their presence on the mountain, a kind of transmission site, however, it wasn't until we were standing across from this spot that we saw and felt the reality of their presence.

There is a story beginning there in Peru for us about the role that *TNO* has played in the unfolding of human destiny and the importance of the work that we do, day by day, to empower others to remember their connection with this destiny. (*TNO* have assured me that this story is forthcoming and part of the unfolding of the next year.)
