TEAM Earth May Zoom Call

Supporting the Earth's Transition

Many of us recognize that the behavior of humans and the attitude toward the earth affects her body, her life force and her ability to support our lives.

Many of us understand that there is a fiber that connects us with all life, and that this fiber is inherent to peace, well-being and cooperation. These aspects of an integral living system and an abundant heart connection are necessary for the resolution of the issues that now face humanity.

Many of us are asking what we can do to support the earth, support the process of peace and to more fully activate our purpose and the intentions that we have for bringing light to the planet, each other and ourselves.

On Valentine's Day *The Ones with No Names* took us to the core of the earth. Here they connected us into a grid that holds the planet and the universe in a symmetry that is very gradually unifying ALL outer aspects of the dimensions that surround earth. We are integrating these dimensions and the inhabitants of those dimensions in a way that reflects the original design of creation.

Each month our community comes together on a Zoom call and shares the heart of this intention to assist the earth in the transition, which is happening at her core.

Please join us to add your energy, your heart, and your intentions. Each month will be recorded and you can purchase the recording on our website. Here is the information for our May call. Hope to see you there!
