Deepening the Experience of
Heart and Soul in the World

Remember your Purpose... Live your Dream... Empower your Life...

Easter Message from The Magdalene

I walked in the fields of golden grass and felt the earth within my body as the Mother flew gently through my veins and arteries to bring me the ground of the earth as my home.

I crossed the threshold of the world's body as a woman but also as a spirit, reaching deep within me for the source of all life.

I held the flowers of the heart and soul from the people as a cherished memory of what the Divine in motion is created through.

I held the hearts of the people as safely as if they had given me their most cherished possession and I had carried it through years and miles of hardship.

I crossed the seas of humanity through the eyes of my heart and carried the blessings from the heavens to their feet, their bodies, and their hearts.

I cherished the souls of the people to bring them their Oneness with *All That Is*.

~~~~~

I come to you now to remind you and to refresh you and to place in your hearts the seeds that I have carried for generations.

I come to you now to open your way to the true time of revelation, for it is now at hand.

I carry with you the cross of forbearance and forgiveness so that we may lay down this cross, **ONCE AND FOR ALL**, and join together as the hearts and souls of humanity to, **AT LAST**, bless the journeys of ourselves and each other, so that we form a wave of light that will transform our lands and our peoples.

Join me in this, within your heart, deep within the recesses of what you most endeavor to create, and we will walk together from this moment on, as true sisters and brothers of the **THE WAY**.
