

SOUL RECOGNITION

*A deep and profound journey
into the vibrational essence of your soul*

with Flo Aeveia Magdalena

The Soul Held within the Soul is our highest potential. The soul is the meeting place of spirit and form, and contains knowledge and memory of the Source of all life. The soul's spark has within it the blueprint of our design, purpose and destiny, which the solar plexus stimulates and the heart mediates. To live from the soul means that one is fully alive with the potential of the innate energy within their system, living from the balance of the above and the below.

The Journey The soul's vibration is deeply grounded within the conscious and subtle levels of the body, and you experience being fully alive, present and connected with others. Each soul is recognized and honoured as the memory of the blueprint is touched, felt and anchored within. There is nothing that you need to do in this ancient & beautiful process.

Returning Home In your journey you are guided by four facilitators who weave a field of union, creating a safe and loving space that invites and calls forth your soul's unique expression. As layers of grief, misunderstanding, anger, fear, beliefs and conditioning are lifted away, joy floods the surface of your mind and heart, and you are free! You are re-birthed into the remembrance of union and oneness.

The Venue The Shark Finn is the finest and most exclusive Oceanfront home in North Ocean City. Unparalleled five bedroom, three and a half bath new residence, with an open floor plan and amazing ocean views! Enjoy walks on the beach!

**Thursday, January 3rd
through Sunday, January 6th**
