

The Light of Our Origin

A Message from Mary Magdalene Through Flo Magdalena

'Our light is our strongest ally, our deepest resource, and our most unifying force.'

The presence of Mary Magdalene brings the presence of light. Opening pathways within us called the *seed of light*, Mary shares with us how to restore the brilliance of the light we each carry and open to the vastness of who we are.

Remembering that we are light affects our cells and body systems, the finding of our place in the world, and restores our connection with our Divinity. Together we will open the Keys to infinite Balance, Integration and Creativity!

Flo Aeveia Magdalena is a respected author, speaker, healer, teacher, and spiritual coach. After a visionary encounter with Christ in 1989, Flo wrote *I Remember Union: The Story of Mary Magdalena*, a vivid account of the life and teachings of the Magdalene.

Flo has worked throughout the world with individuals and groups offering counseling, classes, and retreats that catalyze inner, outer and universal patterns of unity. She is the founder and Executive Director of Soul Support Systems and creates programs that deeply catalyze the potential within our energetic field, thus supporting us in bringing the dream within and our highest potential and life purpose to the world.
