THE DREAM OF WE is in ME

Exploring Our Next Steps: How Do We Live Peace on Earth?

More and more we are aware that we need spiritual principles to make changes in the vibration of Earth. The most important of these are the Four Aspects of Creation: Order, Light, Truth and Union. These are the foundation points of the New Earth. Understanding them will guide us in Co-Creating a World of Balance and Peace.

Warm Water Soul-Opening

As we learn to more fully integrate order, light, truth and union in our bodies, our lives and in relationships, we then bring the clarity of our unique vision and mission to co-create a path for actually solving some of the challenges we face. As we ask questions about our lives here, create a strong connection with earth and all life, we share and unify our intentions for bonding together and discover the pathways that will open and deepen our interconnectedness.

Join us August 7th - 12th, 2018 at Angel's Rest Retreat Center, Leyden MA for water fun, deep soul-bonding and important times of sharing and Oneness.

Support the Earth's Transition TEAM Earth Call July 11th

Through the fiber-of-being we are connected with all life. This fiber is inherent in the creation of peace, well-being and cooperation, necessary ingredients in any integral living system.

To support the earth and the process of peace, and to more fully activate our purpose and the intentions that we have for bringing light to the planet, we connect with the fiber-of-being each month.

In a message from The Ones with No Names, we learned about a deep process of integration happening in the core of the earth. We connected to a grid that assists in holding the planet and the universe in symmetry. This grid is gradually unifying ALL outer aspects of the dimensions that surround earth. We support the integration of these dimensions and the inhabitants of those dimensions in a way that reflects the original design of creation. [Click HERE to listen to this Message.](#)

Join our Zoom call and share the heart of this intention to assist the earth in her/our transition. If you feel action is necessary for the resolution of the issues that now face humanity, join us to add your energy, your heart, and your intentions.

Each month will be recorded and you can purchase the recording on our website. Here is the information for our July call. Hope to see you there!
