

Golden Footsteps

We often go walking
That's just what we do
We walk all about
But we haven't a clue

If we'd add Love to our intentions
As we are walking around
Then our footsteps would become Golden
When each foot touches the ground

Each step becomes a prayer
The right and the left
A Golden reminder
That we've done our best

Include Love in each step
Is a gift to ourselves
And this gift keeps on giving
Not just stuck on a shelf

Can you imagine all the footsteps
All over the world
Putting Gold on our Mother
All our hearts would be heard

The riches we'd spread
As we walk on the Earth
Connects us together with Love
And spiritual rebirth

As the whole world shines Golden
And we've spread Love all around
With each Golden Footstep
We have placed on the ground

The patterns we would make
So Lovely and new
Like the sparkle of lights
In Dawn's morning dew

Imagine rainbow colors
Surrounding you now
Sending all your Love
Straight down thru the ground

All the way down
To the center of Earth
Fill the entire Planet
With all of your mirth

Stay in that spot
Sink your feet into Gold
Feel all the Love
That is yours to behold.
