

## Soul Recognition

Soul Recognition is a profound and life-awakening experience that connects us with our *seed of light* or *soul seed*. This connection catalyzes the wave of life force in our central channel, opening us to our Divinity and true essence, creating a vibrational shift of consciousness in a safe and nurturing environment.

In this 3-4 day retreat, we fortify our connection with our soul's design that is discovered and sustained through the journey of Soul Recognition. Experiential and interactive processes support us in identifying our deepest intentions for our lives as we align with our soul's chosen destiny. When we are resonating with *who we are* and *why we are here*, our physical cells and our awareness come into union so that we integrate our power and purpose deeply within the circuits of our body.

Accessing the Soul Seed, we open the gateway to the soul's essence, bringing guidance and direction for our life. This deep alignment harmoniously grounds our body, emotion, mind, soul and spirit to restore Order, Light, Truth and Union within.
