

A World Divided... *The world is dividing our hearts.*

A Message from Flo Aeveia

Many are feeling the division in the world intimately, even within our own families. Pulled to one side or the other, we see, hear and feel the stories that would divide us.

Finding our own Truth now, in this world fraught with division, requires us to be in our hearts and souls in a more original, creative sense that transcends the logical assessment of the pros and cons, the rights and wrongs, the ins and outs of the world's events and proclamations.

Messages from Our Board Members

Each member of our board has written here to share their experiences with Soul Support and to invite your support and participation in our expanding programs.

As part of our dedication in bringing the soul's essence more fully into the world, Soul Support has offered tuition-free trainings for our facilitators and teachers, not charged for actual Soul Recognition Experiences, and provided a sliding scale for our classes and programs. We have endeavored to provide the highest quality of spiritual guidance, making our programs accessible to all. Our board votes continuously to give what we can to make it possible for all to attend, learn and grow.

Lauren Liberti

"I have taken many workshops and trainings with Soul Support Systems over the past years, and am one in a long line of spiritually-intentioned people who has served on the board. I find refuge in the teachings that encourage me to acknowledge the yearning I feel in my heart and soul and use it as a loving and powerful guide. Living this way has helped me realize that oneness is possible in my life and relationships, and more broadly, that oneness is possible in the world.

I know that few of us have had good models for turning inward to find understanding and connection; and most of us were conditioned by society and our families to deny our truth and look outward for answers. But now as our social systems shake, and the ground upon which we are taught to look for answers crumbles, all of humanity seeks the stability that comes from truth and order. I believe Soul Support Systems offers a path to that; and perhaps you believe that too.

Over the past year I am heartened to see a number of people in the organization hear the call of their soul and step into their lives in more powerful and soul-centered ways. This is happening more and more, and I believe these people and those of us who follow their example will become the models for others for living in a better world.

As 2020 closes and we step into 2021, I ask you to take stock of your experience and where you find your ground these days. If you need support or would simply like to share in community, please considering joining one of our classes or calls. If Soul Support Systems has played a positive role in your life, please consider acknowledging that by supporting the mission of the organization. There is much activity, and much to be done in these times of change. Your piece in the great field of our community is deeply valued and cherished."

" When people ask me about Soul Support Systems and what it does, it is a complex answer and difficult to answer briefly. It would take some time to help one understand the breadth and depth of the work and focus. ..."

"What do SSS modalities actually do and why are they so deliciously life changing? In each SSS experience I've found that the heart and soul lead to disintegration of my blocks to TRUTH. This allowed a raw awareness of the connected Wholeness of life to fill my consciousness. Each SSS experience was unique and added an ever evolving understanding of why events happened as they did. These new understandings foundation my life. It feels safe to hug and love previously hard to love people and places. This is a gift always giving. Yum!"

William Ligon

"Although I am not an active facilitator of Soul Support's offerings, I have benefited from them over the years and recommend them. In my view, we are moving into the promise of Peace and abundance for all, and we will all together bring that promise to fulfillment. Soul Support assists us each in finding our own individual part in this endeavor."

Don Jacobs

"As I reflect on the impact that Soul Support has had on my Life, I truly feel a deep, abiding Gratitude for having found a grounded structure from which I can live. It is a foundational philosophy based in Soul, Heart and Oneness which 'anchors' me as I traverse the 'wonders', both grand and agonizing, of my Human experience. .."

"When I met Aeveia in 2014, it was our hearts that first connected. Interacting with several people that day, I knew that I had found *Community*. Where decades of spiritual explorations had not always acknowledged the Human *and* Divine aspects of *all*, I saw evidence of that truth in the leaders and associates of Soul Support Systems. .."
